

By switching to
green energy
Manchester Landmark Investment Ltd

Contract Period
01/10/24 – 30/09/25
MPAN: 3110000025671

**is helping to build
a green Britain.**

Energy is one of the biggest single sources of carbon emissions in Britain, so companies can make a huge difference just by switching to a green supplier.

And by joining Ecotricity, you make an even bigger difference – that's because we harness your bills to build new sources of green energy in Britain. So you're changing the way energy is made and used – just by paying your bills.

Thanks for joining the green revolution!

Dale Vince - Founder, Ecotricity

Green Gas Certificate

Certificate issued to:

MANCHESTER LANDMARK INVESTMENT LTD

based at ST PETERS SQUARE 1 OXFORD STREET M1 4PB

This certificate created by Crown Gas & Power (a registered biogas provider) confirms that the above company is purchasing RGGO certified biogas (green gas) at these premises during the supply period:

01/10/2024 to 30/09/2025

Biogas (green gas) produces significantly lower carbon emissions than its fossil fuel equivalent. Biogas is created using a natural process called Anaerobic Digestion (AD) in which organic material is broken down by bacteria to create methane (gas). Every kWh of biogas displaces a kWh of fossil fuel, which helps reduce greenhouse gas emissions for a better world.
